TO GROWERS OF
FORCING BULBS, AZALEAS
and Like Imported Stock.

Some advantages we claim in caring
for your orders.

FIRST EARLY SHIPMENTS.

We import by fast steamer one-fourth of our Roman Hyacinths, Freesias and Paper Whites needed for Thanksgiving and Christmas trade. By doing this we put those kinds of bulbs in your hands two weeks earlier than if you wait for your entire order from Holland and France.

All bulbs bought of us will be A No. 1 on delivery and if not satisfactory then, in every way, may be returned or exchanged.

We invite the most critical inspection on arrival and customers are not expected to keep or use any that are not as represented herewith.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

If any of our stocks open up poorly on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be repurchased here at advanced prices and delays.

LILIAM HARRISII,

We are strictly headquarters for these, controlling some of the best bulbs in Bermuda. The packing and shipping will be supervised by our own traveler.

We ship from Chicago or New York.

Our Rule--"All Florists' Stock in Season."

DOUBLE VON SION, True Dutch.

We have a reputation of supplying the best "Yellow Daffodils" in America having secured our supply for years in one locality where it is known that these bulbs can be grown to better advantage than in any other part. We contract yearly for the stock of one large grower and, in this way secure the pick of the crop, supplying bulbs that will be equal to, or better than those delivered by any other dealers. Our double nose bulbs are especially fine, and will throw from two to three first-class flowers, especially recommended for growing in pans.

WE OFFER 4 SIZES OF VON SION.

VON SION, Mother Bulbs. We only get a limited quantity of these; the bulbs are extra large in size and will throw from three to five flowers each. Per 100, \$3.50; per 1000, \$28.00.

VON SION, XXX Mammoth Double Nosed Bulbs, largest and finest roots our growers can select for us, each bulb will bring 2 and more flowers. Per 100, \$2.20; per 1000, \$19.00.

In answer to yours of the 24th will say that our Von Sion Narcissus this season have been very fine; in fact, could not have wished for any better returns than we have had this season with Von Sions,

WM. BLACKMAN FLORAL CO.,

Your inquiry regarding Von Sion to hand. Will say that Von Sion both double and single which you sent us have turned out very good. In fact, the best we have ever grown.

NARCISSUS, PAPER WHITE GRANDIFLORA, PRECOCIOUS.

This is a special strain of Paper Whites selected by one of our best French growers. It is said to flower at least two to three weeks earlier than the regular variety and is we believe worthy of a trial by everyone. Select Size bulbs, 13 ctm. and over. Per 100, 1.25; per 1000, \$10.00.

NARCISSUS PAPER WHITE

GRANDIFLORA.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

AZALEA INDICA.

These plants come packed 25, 50 and 100 in a case.

READY IN OCTOBER.

Our arrangements with the Belgian nurserymen are for the best plants which the season can produce—well-shaped heads, well budded—believing that with Azalea as with Valley, “the best is always the cheapest.”

Orders for these plants are specially packed in Belgium and are inspected and watered by us on arrival both in New York and Chicago. This extra care insures our customers receiving their plants in the best possible condition.

The following varieties are what we consider the finest sorts for commercial purposes or private conservatories. We can, however, import for our customers any special kinds they may wish.

Empress of India, white, salmon rose, crimson intermingled, double.

Vervaeana, very large, rose, striped white, double.

MINIATURE AZALEAS.

These are low-growing shrubby Azaleas which are rapidly coming into favor; easily forced; are splendid for use at Easter-time in making up in decorated baskets, two varieties usually being placed in one basket, ribbon, Porto Rican matting, etc., being freely used. **Hexe** gives best satisfaction when plants are carried over one year in this country.

Hexe. Brilliant crimson color, of free blooming habit, a robust grower.

Chas. Encke. Similar in character to above, but of a handsome pink shade.

Marie Louise. Beautiful pure white and an easy forcer.

WHITE CALLA. (CALLA ÆTHIOPICA.)

The Calla is one of the most profitable and easily grown bulbs a Florist can buy, and we take great pains in securing every year bulbs which are well ripened and cured, securing our stock from growers in California who thoroughly understand the raising, curing and shipping of these bulbs. We have arranged again this year for a large amount of bulbs, but would advise early ordering by our customers in order to be sure of their supply, especially of the larger sizes.

VAUGHAN'S STAR-SHAPED WHITE.—This is a pure white variety with narrow petals and star-shaped flowers borne on long stems. It is a decided improvement over the ordinary Freesia and well worthy of a trial. Per 100, \$1.50; per 1000, \$12.00.

PURITY.—A magnificent, snowy, glistening white of very large size and great length and strength of stem. A dozen sprays make as fine a showing as a dozen white carnations and can be used wherever carnations are used for decorative purposes. A truss bearing from eight to eleven buds, of which six are frequently open at one time, make an immense flower. Per 100, \$2.75; per 1000, \$22.00; 250 at the 1000 rate.

LILIUM LONGIFLORUM.

JAPAN GROWN.

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs such as should with reasonable care give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs our Japan growers understand this stock as well as any exporters from that country.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise 50 per cent. Multiflorum, but remember that disease changes the nature of the plant, etc.

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

LILIUM HARRISII.

INDISPENSIBLE FOR EARLY FORCING.

We secure our entire supply of these bulbs from one concern, who for the past few years have been working up a stock of what we consider to be the old original Lilium Harrisii. In addition to this we will supervise the packing and shipping of the crop through our own representative, thus insuring careful grading and preventing mixture of Longiflorum and other objectionable types.

Under these conditions we ask your orders for the best selected true Harrisii that can be obtained from Bermuda.

LILIUM CANDIDUM.

"THICK PETAELED."

This has been very satisfactorily and profitably forced by several customers the past season. It comes free from disease, even, and pays.

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "Thick Petaeled" bulbs and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Lilium Candidum.

London Market Brand. All shipments go by express.

Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and plenty of foliage. We therefore, urge that early orders be placed for total quantity that may be wanted during the season. Stock will then be reserved and shipments made as desired.

When orders are placed with us for cold storage stock, we set same aside but cannot be responsible for not being able to produce the pips if same have been destroyed by fire, or any other cause beyond our control. We accept no responsibility whatsoever for results in forcing.

NEW PINK SPIRAEA—QUEEN ALEXANDRA.

SPIRAEA.

We are very careful to import Spiraea clumps which have large, plump eyes, as these are the only kind that will give satisfaction when forced.

NEW PINK SPIRAEA, QUEEN ALEXANDRA.

CLIMBING ROSE, "TAUSENDSCHON."

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless. Florists will do well to force this grand rose in for Easter.

FERTILIZERS.

VAUGHAN'S "ROSE-GROWER" BONE MEAL.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose-Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis—Ammonia, 4% to 5% per cent; total Phosphoric acid, 22 to 25 per cent; total Bone Phosphate, 48 to 54 per cent.

VAUGHAN'S PULVERIZED SHEEP MANURE.

Pure, dry, finely ground, put up in 100 pound sacks. Our supply is of uniform quality, saved under shelter and not leached. Our customers using it may therefore be certain of uniform results. More than half a million sheep come into this market annually, and are kept in great barns until killed or shipped. The manure we supply is not adulterated, nor has it lost its strength in any way.

Price, F. O. B. Chicago. 25 lbs., 40c.; 50 lbs., 75c.; 100 lbs., \$1.25; 500 lbs., \$4.50; 1,000 lbs., \$8.50; 2,000 lbs., \$16.00.

DRIED BLOOD, why not use it? For top dressing, for mixing with the soil and applying in liquid form, it is one of the best and safest nitrogenous fertilizers. It is splendid for roses, carnations, mums, all kinds of pot plants, etc.

Price, F. O. B. Chicago: 5 lbs., 35c.; 10 lbs., 60c.; 25 lbs., \$1.25; 100 lbs., \$3.75. **F. O. B. New York:** 5 lbs., 40c.; 10 lbs., 65c. 25 lbs., \$1.35; 100 lbs., \$4.25.

Price: 5 lbs., 25c.; 10 lbs., 45c.; 25 lbs., 90c. 100 lbs., \$3.00.

CLAY'S FERTILIZER. This valuable imported manure is especially recommended. 7 lbs., 75c.; 14 lbs., \$1.25; 28 lbs., \$2.25; 56 lbs., \$3.50; 112 lbs., \$6.00. If shipped from New York \$5.50.

Pincers or pliers for same 50c.; postpaid, 65c.

Seibert's Improved Glazing Points.

Easy to drive and made so that they will not wedge or crack the glass in driving them. The head answers two purposes: First, it gives a good surface and makes it very easy to drive with a chisel. Second, the point is very easily pulled out when repairing greenhouse roofs. They are made in two sizes 5/8 and 3/4 inch long, and are put up in 1 pound packages. Price: Per lb, 36c.; 6 lbs., \$2.00; 17 lbs., \$5.00.

There are over 1,500 points in a pound package of 5/8.
There are over 1,000 points in a pound package of 3/4.

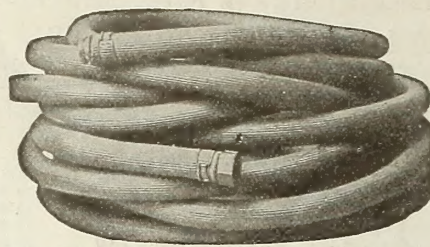

MASTICA, for glazing greenhouses. The use of "Mastica" avoids the necessity of repeatedly reglazing the houses, saving much time and expense. With "Mastica" can be in or use outside with a machine. Broken glass can be easily removed and replaced by new without the breakage of other glass, which usually occurs with hard putty. One gallon will cover about 290 running feet (one side). Price: Per gal., \$1.25; 6 gals., \$7.00; 10 gals., \$11.25; 22 gals., \$23.40.

TWEMLOW'S Old English Glazing Putty. By using this putty, greenhouses can be glazed in half the time and for less money than if ordinary putty is used. It will take five gallons to glaze a house 100x20 feet at a cost of \$5.75 against 200 pounds ordinary putty which will cost about \$6.00. Being semi-liquid it can be put on with an ordinary putty bulb very quickly, and as it never becomes hard, broken glass can always be removed without danger to the other lights. Price: Per gal., \$1.25; 5 gals., \$5.75; 10 gals., \$11.50; 20 gals., \$22.00.

SCOLLAY'S Putty Bulb. A useful tool similar to the well-known Scollay Sprinkler, with a tube instead of spray for applying liquid putty in glazing greenhouses. Each, 75c.; 3 for \$2.15; doz., \$8.50.
